**PROVIDING THE
HIGHEST QUALITY
DESIGNS, TECHNICAL
EXPERTISE AND SUPPORT**
to the Sports Court Facility & Construction Industry.

COMPANY OVERVIEW

Welcome to iDwala, where sports meet engineering excellence and customers are provided with affordable and professional services within the sports facility design and construction industry.

Offering a complete service, iDwala is regarded as a true market leader in the provision of design and specification works for new sports facilities, as well as older sports facilities that require refurbishment. In addition to our design and specification services, we also offer inspection and audit reports for outdoor sports facilities ranging from single courts to the development of multiple courts, and all associated infrastructure. We also offer concept planning to assist with funding applications.

Backed by 25 years of civil construction and facility maintenance experience, you can trust iDwala to provide industry specific technical advice on all aspects of pavement design and construction, drainage, soil conditions, product suitability and quality, maintenance programs, refurbishment opportunities and best practices for ensuring the longevity of your facility. Furthermore, through iDwala's partnership with a range of specialist contractors and suppliers, we pride ourselves on providing the best quality, value and experience for each individual customer.

Located on the outskirts of Melbourne, iDwala successfully services all of Victoria and New South Wales, and is happy to meet clients onsite to discuss the unique requirements of their project.

PROFESSIONAL SERVICES

DESIGN & SPECIFICATION

- Provide technical specifications
- Provide cut and fill quantities
- Recommendations on surface design, types and products
- Produce concept visuals
- Workshop with stakeholders to define preferred facility benefits.

PROJECT MANAGEMENT

- Manage the full project from start to finish
- Produce cost estimates
- Discuss scheduling considerations
- Liaise with client engaged consultants.

AUDIT & CERTIFICATION

- Complete condition reports
- Produce remediation scope of works and associated costs
- Undertake surface testing
- Feasibility studies
- Advise on relevant sports.

INSPECTIONS & MAINTENANCE

- Attend periodic site construction meetings to witness inspections
- Prepare maintenance plans
- Provide best practices for increased longevity.

SPORTS COURT CONSTRUCTION

- Respond to construction RFI queries
- Oversee construction works by specialist contractors
- Clarify technical specifications
- Attend site construction meetings.

CONCEPT & BUDGET PLANNING

- Detailed budget costing to support concept drawings
- Concept and budget to assist with funding applications
- Assist with future planning and costings used for consultation with stakeholders and community.

CONSULTANCY & TECHNICAL TO SERVICES

- Provide technical advice on new and existing sites
- Advice on pavement designs and structural condition
- How to maximise activity with multi-purpose court designs
- Surface performance and playability consultancy

OUR TEAM

iDwala operates under the direction and vision of George Devenish, a specialist consultant for the design and construction of outdoor sporting facilities.

George has been contributing to the civil construction, maintenance and sports surfacing industry for over 25 years. Delivering high quality designs, technical expertise and advice on hundreds of projects, he has proven himself to be a highly sought after and specialist consultant capable of offering his clients the benefit of in-depth construction experience coupled with strong technical design skills and business acumen.

George prides himself on delivering high quality, innovative solutions for his clients who are striving to meet the needs of Australia's growing sports and active recreation community.

COMPANY VALUES

iDwala has developed five company values that set the foundations for how we approach our relationships, with all our clients. The key to our success is building positive client relationships that offer transparency, honesty and trust. We continuously strive for excellence and innovation in our designs and take pride in educating and coaching our clients for long term success. Lastly, we encourage sustainable practices in all that we do.

BETTER AND BETTER	WE CREATE STARS	ONE TEAM	CONSIDERING TOMORROW	BUILDING PARTNERSHIPS
Every day we aim to get better and better at what we do.	We educate, mentor and coach others wherever we can.	We manage the company as a system of interconnecting parts.	We are responsible and sustainable.	The key to our success is positive relationships.

DESIGN AND SPECIFICATION

Specialising in all outdoor surfacing solutions including acrylic, synthetic grass and EPDM rubber surfaces, Councils, schools and private residences across Victoria and southern New South Wales turn to iDwala for high level design and technical specifications.

iDwala offers clients the combined benefit of practical experience with proven engineering practices to deliver high quality, economical sports facilities that guarantee longevity and superior performance.

With a high degree of technical knowledge and understanding of geological conditions and reports, all pavement designs and constructions are tailored to suit local conditions and unique site requirements whilst maintaining compliance with Australian and international standards and regulations.

SUSTAINABILITY

Sustainable practices are a critical aspect of every iDwala project and an important consideration for our clients in ensuring the development of sporting facilities has minimal impact on the surrounding environment.

When designing and constructing new sports facilities, iDwala incorporates sustainable practices across a variety of project elements, some of which focus on existing vegetation and trees, recycling and repurposing of materials, minimising cut and fill across the sites and designing pavements with the ability to withstand 30+ years which reduces the cost or requirement for reconstruction in future. Additionally, the accompanying infrastructure such as fencing, shelters and lighting are also designed with longevity in mind.

DELIVERING
INNOVATIVE AND
HIGH QUALITY
SPORTS FACILITIES
THROUGH COMPREHENSIVE

SPECIFICATION SERVICES

FOCUS ON ACCESSIBILITY

Passionate about inclusive community sports, iDwala guarantees all sports facility designs will meet the relevant Australian standards and governing sports body regulations, whilst also offering inclusive design considerations to enable

accessibility, inclusivity and an excellent playing experience for all. A few clever design tweaks whilst maintaining facility compliance can make a huge difference to the accessibility of your sports facility, for little to no additional expense.
